A Coach Helps You Be Accountable!*

ACCELERATE YOUR RESULTS!

Individual (One-on-One) Coaching Services are available via telephone to assist you in growing your business and developing the *skills* and the “*mind set*” necessary to achieve Financial Freedom using the step-by-step “Power of Six” business plan.

Coaching is a critical component of building your business as it helps you to address individual questions and concerns about your prospects, customers, business builders, your goals, plans and strategies, your particular situation, as well as your skills and thinking.

- Coaching Sessions are dedicated to helping you **achieve your dreams** in the least amount of time possible. Coaching sessions are focused on working “on” your business rather than “in” it. (Working with prospects directly should be done separately from these business coaching sessions.)
- Individual Coaching is provided to team members based on the business building package they purchased and their performance.
- Weekly coaching sessions are approximately 30 minutes long. (Alternatively, you may elect to do double sessions every other week.)
