

TAKING VITAMINS?

There are many misconceptions and confusing information in the marketplace. Lots of “noise” and “hype” trying to get you to buy fad, questionable or even dangerous products.

But your health is too important to leave to chance. When it comes to health products, **QUALITY MATTERS.** (You take food supplements because of the lack of quality of your food, so doesn't it make sense to choose quality food supplements?)

Shaklee, as the #1 natural nutrition company in the U.S., has invested over \$250,000,000 in research, development & clinical testing to bring you the highest quality, most effective products on the market. That's more than the other leading companies **combined!**

CHOOSE QUALITY	SHAKLEE	Costco	Trader Joe's	Rite Aid / GNC
All Natural Products (no synthetics, artificial preservatives, colors, etc.)	Yes	No	No	No
Clinically Proven Health Benefits (Peer-reviewed published studies)	Yes ¹	No	No	No
Sold Unsafe Products, Pulled products due to media coverage	Never ²	Yes	Yes	Yes
Unbalanced Formulations and Misleading Labels ³	No	Yes	Yes	Yes
Products break down (dissolve) in 30 minutes or less	Yes	No	No	No
Testing raw ingredients for purity, potency, freshness, and composition (independent of suppliers).	Over 83,000 Annually	No	No	No
Pharmaceutical Grade Manufacturing	Yes	No	No	No
Endorsed by independent medical professionals & scientists	Yes	No	No	No
Environmentally Responsible (Climate Neutral - Net Zero Carbon)	Yes	No	No	No
Purity, Potency, Performance and Satisfaction 100% Guaranteed	Yes	No	No	No

¹ There are over 130 clinical studies done on Shaklee products, proving their health benefits, and most have been published in independent peer-reviewed scientific journals. Other companies quote studies done on “ingredients,” but have little or no studies done on their actual products.

² In over 50 years. ³ Other companies add “hot” nutrients in the news but often not in the amounts that actually provide health benefits.
